Liberia Medical Mission: Joseph Sackor
Ngoyelagee Association Amos Bongolee

ANC/USA - Berma Finley
Others.....

- 9:45pm: Closing remarks and opening of the **DANCE**
Janet Roberts, Lisa Kpanlin, and Abu Bakar

Thanks for attending and helping to support our team efforts.

Here are some of the low resource spending we will continue to do if you support us:

- **\$30-50.00/month for village/community health workers to provide outreach to 1000-2000 people.
- **\$43.00 can provide THREE MEALS for 20 pregnant women for ONE DAY in a maternal waiting home where the pregnant women leave their villages/towns when they are about 8 ½ months pregnant to stay near the clinic until they deliver their babies – this reduces maternal complications and deaths especially for high risk mothers and those living far away. That is \$2.15 per pregnant woman/day or 72 cents per meal.
- **\$8.00 can provide gasoline for a motorbike for one day for the vaccinator and midwife/another health worker to do outreach in villages and schools and to give vaccines and treatment in areas far away from the local clinics.
- **\$10.00/day for 10 community members to work on a communal garden/farm to reduce the high malnutrition and increase food security.
- **Investing \$1.00 in providing good sanitation [and clean water] services can yield \$4-12 in return of health and productivity benefits. Poor water and sanitation are related to 80% of illnesses in developing countries.

About 5.9 million children under the age of 5 years died in 2015, the majority in Africa – that is about 11 children deaths every minute. Everyday about 830 women die because of pregnancy and childbirth reasons, with 99% occurring in developing countries with majority in Africa – that is about 35 maternal deaths every hour.

Donations will support health, education, and agriculture/nutrition programs
You can donate at www.rhealth.org or call 609-233-1876 or 302-650-0428 or 267-591-9083. Donation is tax-deductible
